Pantry awarded grant
from FirstEnergy Foundation!
We are pleased to announce that our pantry has been awarded a $10,000 grant from the FirstEnergy Foundation.
This support comes at a critical time. With rising food prices and a sharp increase in the number of families visiting us each week, these funds will directly help us continue our mission to fight food insecurity right here in Pike County.
A big thank you to the FirstEnergy Foundation for partnering with us to help keep our community fed and supported.
We couldn't do this work without the community behind us.
